Denver Colorado 80220

Gentlemen

As required by Part III Section C 4 b of the Rocky Flats Plant National Pollutant Discharge Elimination System Permit (CO-0001333) the Rocky Flats Office is hereby notifying you of an unauthorized bypass from the South Interceptor Ditch (SID) at Rocky Flats Plant. The bypass took place on Monday morning August 24 1992 around 10:00 am and lasted about 1 hour. The bypassed water was contained in a section of the SID that has been replaced and is no longer in use. It did not flow into Woman Creek.

The bypass happened during heavy rain and was caused by runoff that exceeded the capacity of the SID. It occurred in a 40 to 50 foot section below building 881. To help prevent reoccurrence of the bypass the capacity of this section of the SID has been increased by placing sandbags along its edge and raising the level of the adjacent road with fill-dirt.

If you have any questions concerning this notification please call Tom Lukow of my staff at 966-4561.

Sincerely

James K Hartman
Assistant Manager
for Environmental Management
